## THE MIGHTY SMALLS

The International Development Collaborative, LLC (IDCollaboartive) is a coalition of “Mighty Smalls” inspired by USAID’s call for international experience and technical expertise to meet the needs of global communities in all aspects of Architect-Engineer services. Collectively, the IDCollaborative has 30+ years of experience on over 1,500 projects in 89 countries worldwide.

The IDCollaborative is led by a small-business joint venture between **M&J Engineering, P.C. (M&J)**, an 8(a) certified small minority business enterprise, and **The Urban Collaborative, LLC, (UC)** a veteran-owned small business (VOSB).

### M&J ENGINEERING P.C.

“INNOVATIVE AND STATE-OF-THE-ART SOLUTIONS”

engineering services. Since inception in 2004, M&J has grown into a diversified provider of engineering, environmental, construction, and technology services to a broad range of clients, including federal, state, and city/local agencies, private owners, architects, engineers and contractors. M&J seeks innovative solutions coupled with traditional methods to achieve the best results.

M&J is a quality provider of multi-discipline consulting

## The Urban Collaborative

Master Planning + Urban Design + Architecture

The UC is an interdisciplinary design firm that focuses

on helping clients achieve their sustainability goals through engaging, educational, and efficient participatory processes tailored to each project’s scale, context, and culture. The UC’s award-winning work addresses environmental, fiscal, and social sustainability in ways that support and enhance their clients’ missions.

The IDCollaborative is proudly comprised of these “Mighty Smalls” plus Gannett Fleming Inc., a large business.

- Relyant Global, LLC (SDVOSB)
- Cal Poly Irrigation Training and Research Center (501C3)
- Engage Federal, LLC (WOSB)
- Bacara, LLC, (SDVOSB, HUB Zone)
- GM Hill Engineering, Inc. (8(a), WOSB, EDWOSB, SDB)
- R. McGhee and Associates, LLC (WOSB, SDB, DBE)
- Geo Consultants Corporation (WOSB, HUB Zone)
- Rhino Fire Protection Engineering, PLCC (SB)
- Adaptive Leadership Strategies, LLC (WOSB)

The IDCollaborative provides global mission support for US government agencies serving the international development and disaster assistance community. We seek to promote and demonstrate democratic values abroad by accomplishing USAID's mission with programs, processes, organizational structure, and blended local workforces that unlock potential.

### WHAT WE DO

Our core services include:

- Building Capacity
- Collaboratively Plan, Design, & Construct
- Provide Technical Expertise
- Monitor & Evaluate

### HOW WE DO IT

Our multidisciplinary teams of local and international consultants work with high levels of community investment in host nations to tackle the environmental, water and sanitation, transportation, and infrastructure challenges, and to generate

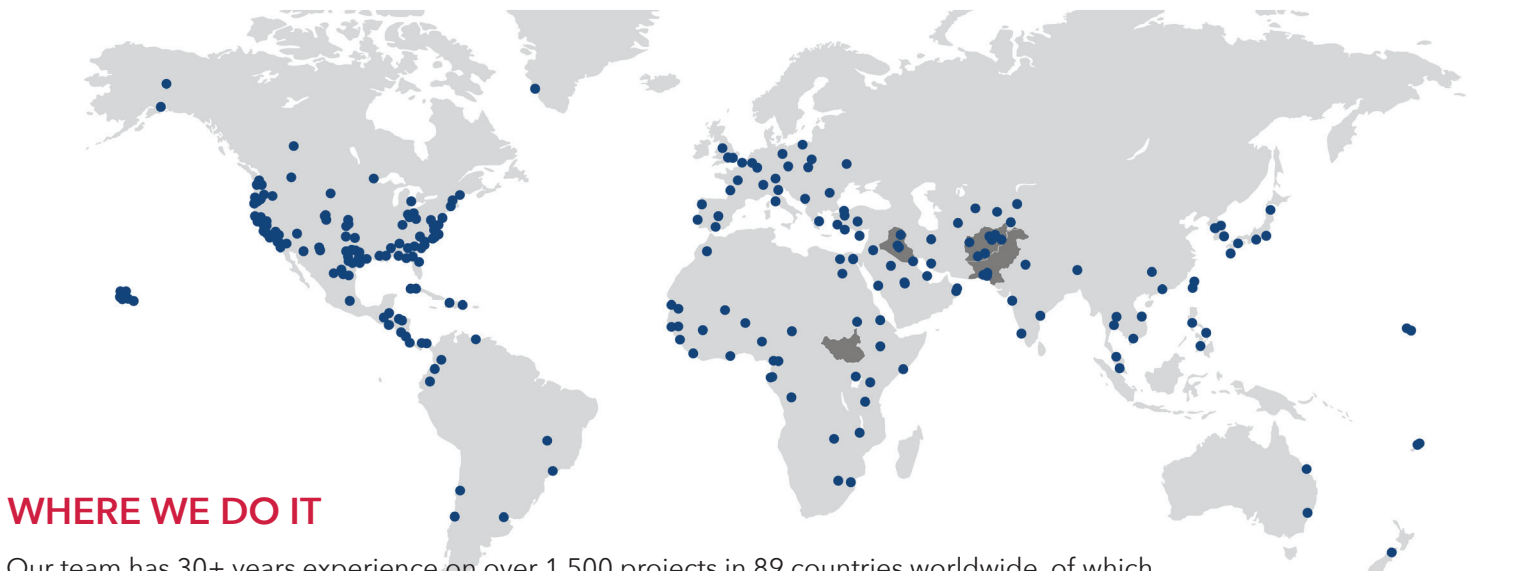

opportunities for improved health, food security, and economic growth and trade.

We ensure local labor forces obtain, improve, and retain the skills, knowledge, tools, equipment, and other resources needed to create innovative solutions for once unsolvable development challenges. This includes developing and starting catalytic initiatives that elevate women and facilitate economic prosperity. We use best practices to educate and empower local residents through established success in the areas of:

- Sustainability, Resilience, & Climate Mitigation
- Facilities & Vertical Structures
- Energy
- Water & Sanitation
- Gender Equity & Social Inclusion
- Telecommunications
- Environmental Services
- Agriculture/Irrigation

(L) Our collaborative charrette model encourages meaningful stakeholder engagement and comprehensive project solutions. (R) We build local capacity through hands-on training with subject matter experts and implement culturally and environmentally appropriate processes.

### WHERE WE DO IT

Our team has 30+ years experience on over 1,500 projects in 89 countries worldwide, of which 13 are located in the USAID Critical Priority Countries (shaded dark grey).
